

Agency: California Air Resource Board (CARB)

Booth Topic: Emission Inventory

Booth # 1

Any unanswered questions?

Provide a list of any questions you would like answered in a future.

Any concerns? What are some concerns you have about the content presented?

This booth focuses on providing information on the concept and components of an emission inventory, and the ongoing development of **the specific inventory for the Community Corridor of El Centro-Calexico-Heber**.

Visitors to this booth can expect to understand information and data pertaining to **types of emissions and sources of pollution which makeup the emission inventory for the Community Corridor**. Visitors will also understand what type of stationary and area sources impact each specific community – El Centro, Calexico, and Heber – in the AB 617 Community Corridor.

Agency: California Air Resource Board (CARB)

Booth Topic: AQ View

Booth # 2

Any unanswered questions?

Provide a list of any questions you would like answered in a future.

Any concerns?

What are some concerns you have about the content presented?

This booth focuses on providing the public with an overview of the development and statuses of **statewide database and portal for Community Air Monitoring data known as AQ-View.**

Visitors to this booth can expect to learn about **the features of AQ-View, how to access data** once the portal is completed and released to the public, and the primary goals of the AQ-View tool for the AB 617 Program.

Agency: California Air Resource Board (CARB)

Booth Topic: Enforcement

Booth # 3

Any unanswered questions?

Provide a list of any questions you would like answered in a future.

Any concerns?

What are some concerns you have about the content presented?

This booth focuses on providing information about **the role of CARB in enforcing air quality regulations throughout the State of California**, and the goals of the Enforcement Plan that is a required component of the Emission Reduction Program for the Community Corridor of El Centro-Calexico-Heber.

Visitors to this booth can expect to learn about CARB's enforcement efforts in Imperial County and the Community Corridor. The public will also learn of the **Air District and CARB's evaluation of enforcement and compliance data from the past three years** within the Community Corridor.

Agency: California Air Resource Board (CARB)

Booth Topic: Source Attribution

Booth # 4

Any unanswered questions?

Provide a list of any questions you would like answered in a future.

Any concerns?

What are some concerns you have about the content presented?

This booth focuses on explaining the concept of **source attribution and its importance in shaping which strategies** should be examined and implemented as a part of the community emissions reduction program.

Visitors to this booth can expect to become familiar with some of the **sources and source types of pollution which are contributing to community-scale air pollution** in the El Centro-Calexico-Heber AB 617 Community. The public will also learn about how air quality levels and air pollution problems can vastly differ in areas within a small region, such as within the boundary of our AB 617 Community.

Agency: **Comite Civico Del Valle, Inc. (CCV)**

Booth Topic: IVAN Network Reporting

Booth # 5

Any unanswered questions?

Provide a list of any questions you would like answered in a future.

Any concerns? What are some concerns you have about the content presented?

This booth focuses on providing information about the role of Comite Civico del Valle as a local environmental justice organization and on providing information about resources on air quality and public health tools; **such as the IVAN monitoring system and the school flag program.**

Visitors to this booth can expect to understand the use of the **IVAN reporting tool and the community air monitoring network that is operated by Comite Civico throughout Imperial County.** Visitors will also learn about the work of our School Flag Program and how participating schools have implemented the tool to inform their students, teachers, and community of their local air quality.

Agency: **Comite Civico Del Valle, Inc. (CCV)**

Booth Topic: Existing School Flag Program

Booth #6
